

MULTI-LAYERED CO-EXTRUDED VACUUM BAGS

- Our top quality 5-layer barrier bags provide a clear and highly secure pouch.
- The outer and inner layers are made from polyolefin for extra water and moisture protection.
- The extra thick inner layer provides a high barrier against oxygen to retain colour. This gives your product a better visual appeal.
- Our extensive range of multi-layered barrier bags are manufactured to stringent international standards. This ensures product and food safety.

IMPORTANT

- The characteristics of the film may change if it is stored in extreme conditions.
- It is recommended to store it at 15 – 25°C, in a dry place.

SIZE mm (WIDTH X LENGTH)	QUANTITY / BOX
110 X 185	2 000
130 X 550	1 000
